Whatsver may be said to the con-trary, they believe that their representatives are clothed with something more than an advisory authority, and they expect the legislature to do its duty first, before it calls upon the people. That body cannot throw off the the people. That body cannot throw on the responsibility of a settlement by submitting the question to a popular vote, before it comes to a definite conclusion, and places itself on the record. The people expect to be called upon to act upon the decision of the legislature, and not on a set of propositions, submitted by the legislature or by the credi-tors. The Democratic platform calls for the

submission to the people of the adjustment made by the legislature with the creditors, for ratification, and nothing else, and as this clause of the platform seems to have special weight with the mujority, it should not be perverted from its true meaning." PROTECTION FOR MECHANICS.

An Important Bill that Recently Passed the House-The Rights of Married Women, Infants, Non-Residents and Prior Bona Fide Liens also Provided For. Bath-Tubs,

Nashville American: "An important bill

ntroduced by Mr. Maccabe, of Memphis, to

reate a lien in favor of mechanics and oth-

ers, in certain cases, passed the house on its

third reading yesterday. A very large and worthy class of our citizens, all over the State,

have a direct interest in the passage of the

neasure. This bill provides that any perso

who shall perform labor, or furnish material r machinery for erecting, repairing or fixishing any house, mill or other building, ly owner, shall have lien to secure the payment of the same, upon the building and the lot of land upon which it stands. A wise provision of this measure is that which enables journeymonth ago did not eccur. It was a hoax men, laborers, carmen, sub-contractors and others, doing work or furnishing materials toward the erection of any building under a contract between the owner thereof and builder or other person, whose demand has not been paid, to deliver to the owner an attested account of the amount and nature of the work done or material's furnished within ten days after the labor is performed, and thereupon such owner shall retain out of his subsequent payments to the contractor the amount of such work for the benefit of the person doing the work or furnishing the maerial. The rights of the owners are protected by the praviso that ten days notice nave yet been received of fourteen fishing given to the owner that such lien is demanded essels which went out from here to George's by the parties doing the work or furnishing ber of the commission, who was, perm s, the best international lawyer in England, and Lord Lenderlin, now under-secretary of foreign affairs, who seehaps knew more about the treaties that England ever entered are in favor of repudiating of the parties doing the work of foreign affairs, who seehaps knew more about the treaties that England ever entered the interest on the balance, and men who are in favor of repudiating two-thirds of the commission. New Orleans, March 9: The Republicans of the senatorial district composed of the parishes of St. James and Ascension, overwhelmingly Republican, nominated Feirx H. Poche, onservative, to the convention, over Morris | the owner and contractor to that end. As a further precaution, it is provided that where the owner of the building, or his authorized agent, has been furnished with such attested account and such notice, it is made his duty to furnish his contractor with a copy of such papers, 'so that if there be any disagree A Mysterious Murder.

said contractor, in an action for money had and received to the use of said crediter, and to the extent in value of any balance due by the owner to his contractor onder the contract with him at the time of the notice first given, or subsequently accruing under the same, if such amount shall be less than the sum due from said contractor to his creditor. This is fair and just. If by collusion the owner pay to the contractor any money in advance of th sum due on a contract, the owner is made hable to the amount that would have been due at the time of his receiving the attested account of the work done. The manner of forcing the lien provided by this bill is plain and simple. An account in writing of the item of labor, or material furnished, sworn o within four months from the time of doing such work or furnishing the material, is o be filed in the register's office of the county where the work has been done, and is then recorded in a separate book, which operates as a lien from the time the work was commenced or material formshed, and for two years after the completion of the same, on the buildings and the lots on which they tand. If the contract has been in writing, copy of the contract is to be filed with the ecount. Judgment may be obtained on this ien for the amount due, and when suit is commenced on such account the lien continues until the suit is finally determined. If the progress of the work on any building be suspended by the death of the owner 'at a stage when, from its unfinshed state the structure would go to waste. the laborers, mechanics and furnishers thereto may proceed with the same at their own expense so far as to inclose such building and thereby prevent such waste, provided the work so done after such suspension shall be according to the contract and plan of the owner.' This is an excellent provision of Mr. Maccabe's bill. The bill guards the interest of all parties concerned, protects the rights

and prior bona fide liens, and gives to workngmen a well-deserved protection without espassing on the rights of others."
